

ORCHESTRATE

AUTOMATE WORKFLOWS. MANAGE OPERATIONS.
DELIVER AN INTEGRATED TECHNOLOGY ECOSYSTEM.

SAFETY REIMAGINED

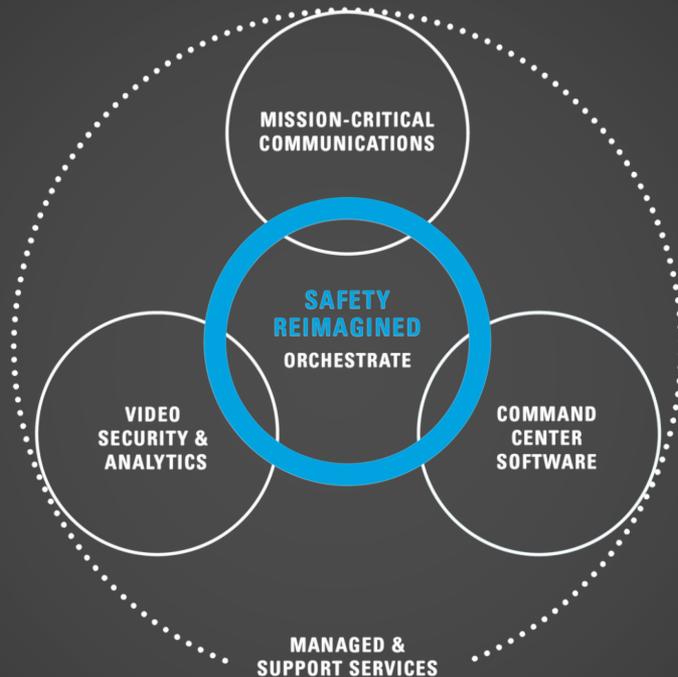

AN INTEGRATED TECHNOLOGY ECOSYSTEM

Instant voice communications to reliably connect teams across workflows and zones

Video analytics technologies to quickly identify and track points of interest across widespread areas

Advanced software and security to centralize command everyday and during emergencies

Support services that are always there maintain systems for today and into the future

Technology unified by Orchestrate built to empower you to address the unique challenges of your operation.

MANDATE TO AUTOMATE

FOCUS ON WHAT MATTERS THE MOST. AUTOMATE THE REST.

OPERATIONAL INEFFICIENCIES

90%

of all time used to perform tasks
within a business is transfer
time

Conventional workflows that
consume time, manual vs.
automated response

SILOED AUTOMATION

45%

reported their organizations
approach the automation
strategies in an ad-hoc way

Cross-silo integration challenges,
lack of continuity across systems
and technology

CHALLENGED RESOURCES

92%

Report a gap in
automation-related skills
amongst current workforce

Unrelenting pressure to do
more with less, lack of
specialized skills

MAXIMIZING INCIDENT RESPONSE

COMPLEX WORKFLOWS, SIMPLIFIED.

DETECT

How do we effectively monitor the widespread areas of our operations?

ANALYZE

How can we recognize events and accurately evaluate situations as they arise?

COMMUNICATE

How do we connect workgroups that need to collaborate?

RESPOND

How do we quickly respond to issues before they escalate?

ORCHESTRATE HELPS BY...

Automatically monitoring remote areas, maximizing resources

Securely harvesting operational data 24/7

Leveraging and evaluating real-time data

Providing actionable alerts based on trigger type

Setting up rule-based workflows

Initiating trigger-conditional logic

Accelerated incident response

Automatically logging of incident information

ORCHESTRATE BENEFITS

SEAMLESS INTEGRATION TO THE ENTIRE SAFETY REIMAGINED ECOSYSTEM

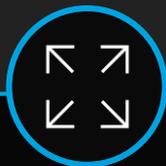

INTUITIVE

Simple workflow design

Access from anywhere, anytime

Minimal training required

EASY TO USE

INTEGRATED

Expedite detection & response

Create custom reusable workflows

Full visibility across technologies

ACCELERATE OPERATIONS

INTELLIGENT

End-to-end automated workflows

Streamlined processes

Advanced video analytics triggers

AUTOMATE TO SCALE

ORCHESTRATE BENEFITS - CUSTOMERS

INCREASING HUMAN ABILITY AND BUSINESS AGILITY THROUGH WORKFLOW AUTOMATION

**AUTOMATE
WORKFLOWS**

Expand
reach

**IDENTIFY
BOTTLENECKS**

Minimize
inefficiencies

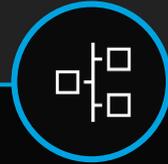

**BOOST
PRODUCTIVITY**

Reduce
manual effort

**INCREASE
FOCUS**

Focus on high
value activities

**IMPROVE
TRANSPARENCY**

Track status at
every stage

ORCHESTRATE - WORKFLOW AUTOMATION

USER FRIENDLY, SELF-SERVICE TOOL

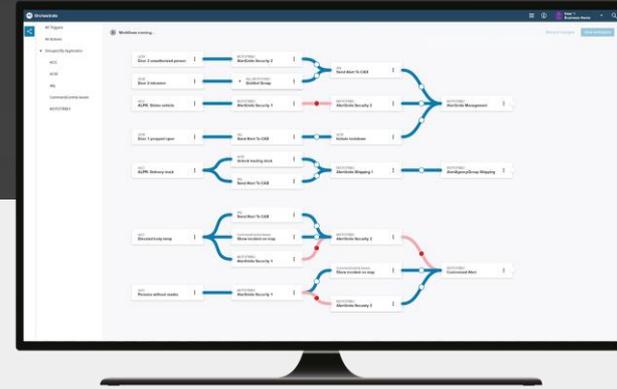

EXPLORE

Define business logic with a simple-to-use, single-pane graphical interface

CONFIGURE

Create automated workflows for machine-assisted decision-making

ACTIVATE

Leverage analytics to trigger conditional logic, alerting and informing relevant teams

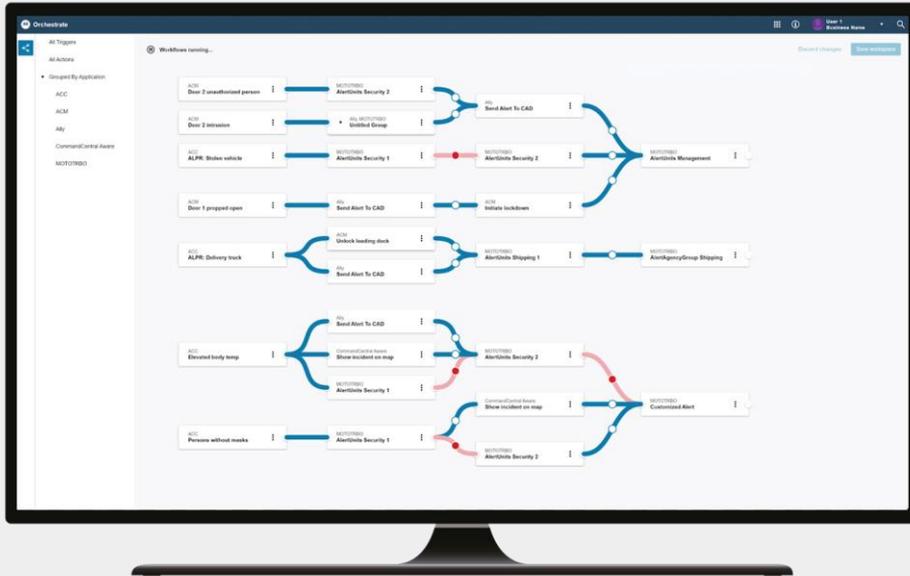

ORCHESTRATE FEATURES

INTEGRATED BUSINESS WORKFLOW AUTOMATION ENGINE

Artificial intelligence combines with digital business logic to help organizations orchestrate how they detect, analyze, communicate and respond to events.

Enterprise Cloud Platform

Automate operations at speed and scale with a platform that connects across voice, data, video, software and analytics

Analytics-Driven Logic

Leverage analytics to trigger conditional logic, alerting and informing relevant participants throughout an operational lifecycle

Intuitive, Visual Rule Design

Author and maintain business logic outside of traditional code with a simple-to-use, graphical interface

Integrated Workflows

Automate digital workflows, from simple machine-assisted decision-making to complex workgroup event management

KEY FEATURES

BE MORE PRODUCTIVE WITH AUTOMATION AT YOUR FINGERTIPS

INTEGRATED WORKFLOWS

Real-time holistic view of operations

Rule-based event triage

Secure connection across technology

AUTOMATED SERVICE

Collect data from multiple sources

Analytics-driven logic

Automated escalation and notification

SELF-SERVICE PORTAL

Single-pane organization

Secure cloud-based cross-technology

Intuitive, visual rule design

PROCESS MAPPING

DECISION AUTOMATION

DRAG-AND-DROP INTERFACE

ORCHESTRATE TECHNOLOGY ECOSYSTEM

TRANSFORM YOUR PROCESSES WITH BEST-IN-CLASS WORKFLOW AUTOMATION

ORCHESTRATE AND ALLY SECURITY

ORCHESTRATE PLATFORM

COMMANDCENTRAL

AVIGILON CONTROL CENTER (ACC) & ACCESS CONTROL MANAGEMENT (ACM)

FACILITY ACCESS CONTROL

ON PREMISE VIDEO SECURITY

MOTOTRBO SYSTEM - INFRASTRUCTURE AND DATA GATEWAY

MOTOTRBO SUBSCRIBERS

CUSTOMER SECURITY OPERATIONS CENTER

MOTOROLA SOLUTIONS CLOUD SERVICES

CUSTOMER FIELD OPERATIONS

USE CASE - SECURE DOOR BREACH

KNOW WHAT IS HAPPENING. ACT WITH CERTAINTY.

DETECT

Access control breach recognized

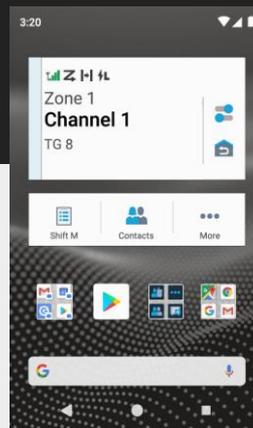

ANALYZE

Situation monitored

COMMUNICATE

Unified communication to multiple teams

RESPOND

Doors locked, video recording resources dispatched

THE ROLE OF ORCHESTRATE IS...

**Data
collaboration**

**Business rules
applied**

**Connect
rapidly**

**Accelerated
response**

TECHNICAL SUPPORT FOR ORCHESTRATE

EXPERT SUPPORT WHEN YOU NEED IT

WHY IT'S IMPORTANT

- Reliable customer support
- Committed response time
- Address technical issues cost-effectively

WHAT WE OFFER

- 7am-7pm CT regional support via chat/email/phone
- Experienced and certified technical experts
- Rich knowledge base for quicker resolution

WE'RE HERE FOR YOU WHEN HELP IS NEEDED

ORCHESTRATE SYSTEM REQUIREMENTS

MOTOTRBO INFRASTRUCTURE

- Infrastructure v2.9+
- Edge node LMR gateway
- All MOTOTRBO systems with active Essential service plan (except Connect Plus)
- MNIS v2.10+

MOTOTRBO DEVICES

- Radio v2.6+
- Text alert capable radio
- Digital channels
- Group ID support
- Text-to-speech

AVIGILON

- Avigilon Control Center (ACC) server enterprise edition - v7.4+ (required for Ally)
- Access Control Management (ACM) v5.10+ (if using access control alerts)
- Web endpoint service installed

ALLY

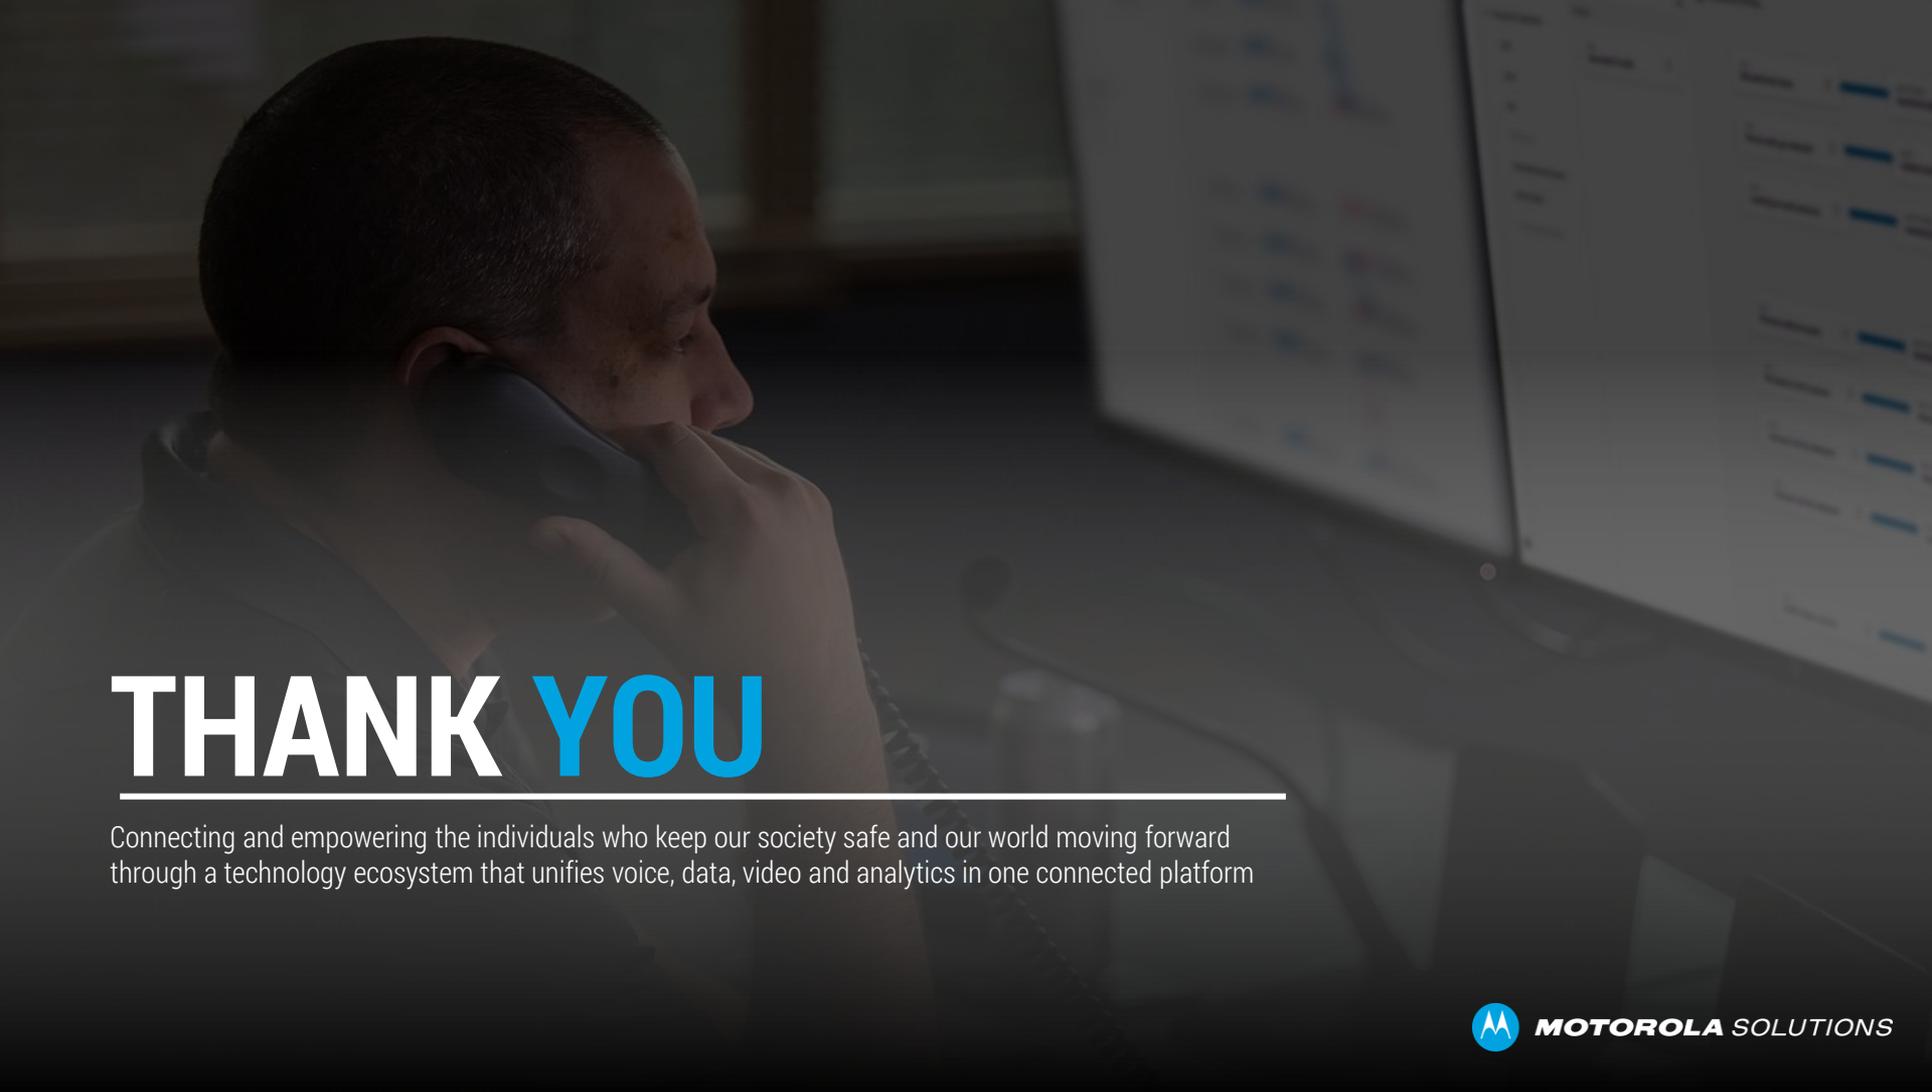

- Dispatch and incident management software
- Offered as a subscription service

ORCHESTRATE

- One workspace per Agency
- Firewalled internet access
- Cloud connector VM with remote access configured
- ACC cloud connector, Edge Node and Ally instance
- Text message alerting

THANK YOU

Connecting and empowering the individuals who keep our society safe and our world moving forward through a technology ecosystem that unifies voice, data, video and analytics in one connected platform
