## Safe Utilities

### Operational View

#### DETECT

##### UNUSUAL MOTION DETECTED AT MAIN PLANT EXIT

Video security cameras detect an individual who is walking against the predetermined directional exit. Breaking this protocol triggers an alarm to automatically be sent to appropriate staff directly on their device of choice and the control room.

#### ANALYZE

##### PERSON FLAGGED AS ARMED AND DANGEROUS

The control room acknowledges the alert and identifies the person as armed moving into the large lobby of the plant.

#### COMMUNICATE

##### RESOURCES DISPATCHED

Security receives a voice alert and immediately intercepts the intruder before harm can occur.

#### RESPOND

##### CORRECTIVE ACTION TAKEN

Security takes corrective action. An incident is logged including video feeds for evidence along with other relevant data allowing for further training and analysis.
